

Honey, I SHRUNK the ART!

ART

What we should already know:

- Use sketch books purposefully to develop and refine ideas and plan for an specific outcome
 - Investigate the nature and qualities of different materials and processes systematically.
 - Apply the technical skills they are learning to improve the quality of their work
- Reflect upon their own work, and use comparisons with the work of others to identify how to improve.
- Know about, and be able to demonstrate, how tools they have chosen to work with, should be used effectively and with safety.

As artists we will:

- Engage in research and exploration in the process of initiating and developing their own personal ideas
- Confidently and precisely use sketchbooks for a variety of purposes including: recording observations; developing ideas; testing materials and techniques and planning
- Confidently investigate and exploit the potential of new and unfamiliar materials
- Use their acquired skills to make work which effectively reflects their ideas and intentions.
- Analyse and reflect on their progress taking account of what they hoped to achieve.
- Research and discuss the ideas and approaches of various artists, craftspeople, designers and architects, taking account of their particular cultural context and intentions.
- Know how to describe the processes they are using and how they hope to achieve high quality outcomes.

Application

We will study the art of numerous artists who used flowers and nature as inspiration, including the work of Luiza Vizoli and Frida Kahol. We will then explore their different techniques and apply these to our own work on a large and miniature scale, creating an art gallery for our grownups to come and celebrate our work with us.
