Generating Ideas	Safely use and explore a variety of materials, tools and techniques, experimenting with colour, design, texture, form and function;	Use sketch books to gather ideas for art work. Experiment with different techniques	Use sketch books to experiment with artistic ideas of their own in sketchbooks. Experiment with different techniques and make sensible choices about what to do next to improve.	Use sketch books to collect, record and review artistic ideas from a range of different sources.	Use sketch books purposefully to develop and refine ideas and plan for an specific outcome. <i>(e.g. sketchbooks will show several different versions of an idea and how research has led to improvements in their proposed outcome.)</i>	Engage in research and exploration in the process of initiating and developing their own personal ideas Confidently and precisely use sketchbooks for a variety of purposes including: recording observations; developing ideas; testing materials and techniques and planning.	Use sketch books to develop a range of ideas which show curiosity, imagination and originality. Systematically investigate, research and test ideas and plans using sketchbooks. <i>(e.g. Sketchbooks show in advance how work will be produced and how the qualities of materials will be used).</i>
Making	Safely use and explore a variety of materials, tools and techniques, experimenting with colour, design, texture, form and function	Investigate a range of materials and media and recognise that they have different qualities. Experiment with different techniques	Deliberately choose to use particular materials, media and techniques for a given purpose Develop and exercise some care and control over their art work <i>(e.g. they do not accept the first mark but seek to refine and improve)</i>	Develop technical skills by experimenting with, and testing the qualities of a range of different materials and techniques. Select, and use appropriately, a variety of materials and techniques in order to create their own work.	Investigate the nature and qualities of different materials and processes systematically. Apply the technical skills they are learning to improve the quality of their work. <i>(e.g. in painting they select and use different brushes for different purposes)</i>	Confidently investigate and exploit the potential of new and unfamiliar materials <i>(e.g. try out several different ways of using tools and materials that are new to them)</i> Use their acquired skills to make work which effectively reflects their ideas and intentions.	Independently refine their technical skills in order to improve their mastery of materials and techniques Independently select and effectively use relevant processes in order to create successful and finished work
Evaluating	Share their creations, explaining the	Describe what they think about the work of others	Express clear preferences and give some reasons for these <i>(e.g. "I like that because...")</i>	Reflect upon what they like and dislike about their own work in order to improve it.	Reflect upon their own work, and use comparisons with the work of others (pupils	Analyse and reflect on their progress taking account of	Provide a reasoned evaluation of both their own and professionals' work which takes account

Drawing	Produce lines of different thickness. Experiment with line drawing.	Explore the use of line, shape and colour. Use overlapping techniques	Develop a range of techniques (e.g. pressure, hardness of pencil) to create a range of tones. Use graded pencils to create different tones.	Develop a range of techniques (e.g. hatching, scribbling, stippling) to create a range of textures. Explore how artists use pattern/texture to reflect mood. Begin to develop proportion in art work (figure drawing).	Begin to show an awareness of objects having a third dimension. Develop techniques to show the effects of light on form (reflection/shadow). Begin to show consideration in the choice of pencil grade they use	Develop perspective in art work (one-point perspective). Develop a sense of scale in art work	Develop perspective in art work (two-point perspective). Develop a sense of scale in art work

Painting	Explore painting on different surfaces. (painting with mud on trees, rolls of textured wallpaper for handprints etc) Enjoy experimenting with a variety of tools e.g. sponges, twigs, fingers, feathers	Know that primary colours are red, yellow and blue. Know that primary colours can be mixed to make secondary colours. Name the secondary colours (orange, purple, green) and how to mix them. Mix paint to the appropriate consistency. Investigate using a variety of brush sizes. Explore how artists use colour to reflect mood.	Create different tones (adding grey). Create different tints (adding white). Create different shades (adding black). Mix and match colours and accurately apply them to observational work. Frame through the use of viewfinders	Develop a range of techniques to create a range of textures (e.g. using sand, sawdust, flour, scratches, dotting, splashing, layering).	Develop an awareness of midground, foreground and background.	Use techniques to show the effects of light on form (reflection/shadow).	Develop a sense of proportion in art work
